

Brightway Electronics - Company Handbook

About the Company

Brightway Electronics is a consumer electronics repair and service company founded in 2015. We specialize in servicing televisions, refrigerators, and air conditioning units for residential and commercial customers. Our head office is located in Dhaka, and we operate service centers in five major cities across the country.

Warranty Policy

All repair work completed by Brightway Electronics comes with a 90-day service warranty covering the specific part replaced or repaired. This warranty does not cover damage caused by power surges, water exposure, or unauthorized repairs performed by a third party after our service visit. Customers must retain their service receipt to claim warranty support.

Refrigerator Service Guidelines

Technicians should check the compressor, thermostat, and door seal during every refrigerator service call. If the refrigerator is not cooling properly, first inspect the condenser coils for dust buildup, as this is the most common cause of reduced cooling efficiency. Gas refilling should only be performed if a leak has been confirmed using a pressure test.

Air Conditioner Service Guidelines

For split AC units, the filter should be cleaned at every routine service visit. If the unit is cooling poorly, check refrigerant pressure before assuming a compressor fault. Outdoor units should be inspected for blocked airflow, as nearby walls or plants can reduce heat exchange efficiency significantly.

Television Service Guidelines

Most modern LED television issues relate to the power supply board or the backlight strips rather than the display panel itself. Before replacing a panel, technicians should test the power board and backlight separately to avoid unnecessary part replacement costs for the customer.

Customer Support Contact

Customers can reach our support hotline between 9 AM and 8 PM, seven days a week. For urgent service requests, customers are encouraged to use the online booking form, which typically receives a response within two hours during business hours.
